On June 11, 2015August 27, 2015By Carmen BIn Asia, Laos, Myanmar. At the time of this trip, crossing Myanmar borders overland remains quite challenging. Thus, the independent, budget traveler wishing to combine this country with Laos must cross through a piece of Thailand, following these steps: Fly to Tachileik; Several airlines cover this route from Heho (Inle Lake), though not every day.

Lao Radio broadcast a report from Bokeo province in Laos stating that 1319 Lao refugees, mostly the ethnic minorities of the Hmong, Yao, Khamou and Lua living in Thailand, voluntarily returned home in late January through border points in Bokeo province. These Lao refugees are originally from many native areas in northern Laos.

Life as a Soldier

An inside study of North Korea exposes the dangers this highly volatile country continues to pose to the world order, and the internal chaos, blind faith, rampant corruption, and terrifying cruelty of its rulers.

The Syrian refugee crisis has galvanized attention to one of the world's foremost challenges: forced displacement. The total number of refugees and internally displaced persons, now at over 65 million, continues to grow as violent conflict spikes.This report, Forcibly Displaced: Toward a Development Approach Supporting Refugees, the Internally Displaced, and Their Hosts, produced in close partnership with the United Nations High Commissioner for Refugees (UNHCR), attempts to sort fact from fiction to better understand the scope of the challenge and encourage new thinking from a socioeconomic perspective. The report depicts the reality of forced displacement as a developing world crisis with implications for sustainable growth: 95 percent of the displaced live in developing countries and over half are in displacement for more than four years. To help the displaced, the report suggests ways to rebuild their lives with dignity through development support, focusing on their vulnerabilities such as loss of assets and lack of legal rights and opportunities. It also examines how to help host communities that need to manage the sudden arrival of large numbers of displaced people and that are under pressure to expand services, create jobs, and address long-standing development issues. Critical to this response is collective action. As work on a new Global Compact on Responsibility Sharing for Refugees progresses, the report underscores the importance of humanitarian and development communities working together in complementary ways to support countries throughout the crisis†•from strengthening resilience and preparedness at the onset to creating lasting solutions.

The 35-page report showcases dozens of prominent political activists, Buddhist monks, labor activists, journalists, and artists arrested since peaceful political protests in 2007 and sentenced to draconian prison terms after unfair trials. The report was released on September 16, 2009 at a Capitol Hill news conference hosted by Senator Barbara Boxer--Human Rights Watch web site.

Account of the Burmese military and sexual violence.

"This report is based on a May 2018 visit to Cox's Bazar. Human Rights Watch found that the mega camp is severely overcrowded. The average usable space is 10.7 square meters per person, compared with the recommended international standard of 45 square meters per person. Densely packed refugees are at heightened risk of communicable diseases, fires, community tensions, and domestic and sexual violence. Bangladeshi authorities should relocate Rohingya refugees to smaller, less densely packed camps on flatter, accessible, nearby land within the same Ukhiya subdistrict where the mega camp is located, Human Rights Watch said."--Publisher website, viewed August 14, 2018.

Military rule in Burma since 1962 has not dimmed the desire of the Burmese people for a new political future. This book, which brings together contributions from some of the leading foreign experts on contemporary Burma, looks at the prospects for change in a deeply divided, yet potentially rich, country.

Adoption is one of the oldest social institutions. Nevertheless, adoption still raises highly emotive issues because of its fundamental implications for the familial ties. This publication provides a solid foundation for furthering research on child adoption and, more specifically, on the demographic factors that shape the demand for and the availability of adoptable children. The focus of this report is on the nexus between adoption policies and trends at the national and global levels. Understanding adoption policies and their origins is all the more important today because, as adoption has become global, inconsistencies among the legal principles and traditions regarding adoption in different countries are increasingly coming to the fore.--Publisher'sdescription.

Introduction -- Africa -- Americas -- Asia and the Pacific -- Europe -- Middle East and North Africa (MENA) -- Introduction -- The right of every child to a nationality -- Migration, displacement and childhood statelessness -- The sustainable development agenda and childhood statelessness -- Safeguards against childhood statelessness -- Litigation and legal assistance to address childhood statelessness -- Mobilising to address childhood statelessness
