From former FBI agent and bestselling author Joe Navarro, a field guide companion to his classic What Every BODY is Saying, revealing the more than 400 essential body language indicators. A decade after his huge international bestseller What Every BODY is Saying, which has sold more than half a million copies in the U.S. and been published in dozens of foreign territories, retired FBI agent Joe Navarro offers its follow-up. The Dictionary of Body Language is a companion "field guide" to What Every BODY is Saying, expanding the original work with hundreds of additional behaviors, and presenting them all in an easy-to-reference format. Moving from the head down to the feet, Navarro explains the hidden meanings behind the many conscious and subconscious things we do with our bodies. We learn how to tell a person's true feelings from movement and dilation in their pupils; what to watch for in the lips of a person who may be afraid, or lying; the many different varieties of arm-crossing, and what each one means; how the position of our thumbs when we stand akimbo reflects our mental state; and many other fascinating insights. The applications for readers are numerous, from the business environment to romantic relationships. After reading The Dictionary of Body Language, you'll have a new ability to read other people's true intentions, and to adjust your own body presentation so that you can convey the right messages.

Find out what your cat is thinking with this easy-to-use reference book. Learn the 100 most common behavioural traits in cats. Beautiful photographs show you how to strengthen the bond with your cat by interpreting its stresses and fears. Cat Body Language looks at all the postures cats are likely to adopt in and around the home, both with other cats and with their owners. Using the psychology of cat behaviour, it explains how a cat is likely to react in stressful situations, such as during a visit to the vet, when it is ill, and before or after a fight. All the most common behavioural traits of cats are examined in detail, from raking the dirt in the backyard and kneading their paws while being stroked to chattering their teeth at flying birds and meowing when a can of food is opened. Also included is a whole section devoted to the cat's most expressive body part – the tail. Cat Body Language is an easy-to-use reference guide that enables cat owners to read the signals their pets are giving through their body language. Cats are often regarded as being part of the family, and this book will help readers understand more about their quiet companions.
