I had anxiety about this for years before I was pregnant and I thought about canceling our first long haul flight trip multiple times. My newborn baby was fussier than most, had major acid reflux, I had to fly alone with her, and our journey was 24 hours door to door. We were just fine, in the end. With preparation, you will be, too. Since then, I've flown

It can also be tough to get kids on long haul flights to sleep and keep them (and, therefore, you) from getting severe jet lag. We received jet lag advice from medical professionals that does work. My daughter is usually over her jet lag by the second day. What you bring in your carry-on is key. To avoid stress, it's important to organize and pack it well. I'll tell you everything I bring onboard and

keep within arms reach on the plane. There is nothing worse than having something you need in a bag in the overhead compartment, when the seat belt sign is on. Remember, if you request bulkhead seats you will not be able to store a bag at your feet. Other topics include tips for diapering on the plane, in flight meals, flying first or business class, and more. You'll also be able to receive quick answers to questions via our ongoing discussion on Twitter via the #flyingwithkids hashtag. There is helpful information in this ebook, regardless of how long your flight is.
