postgraduate and professional levels. The text is written in a clear and concise style, illustrated with topical examples and data. Organisations and the Business Environment (second edition) comprises four sections: * Business Organisations ; V discusses the evolution of organisational and managerial theories and concepts with particular emphasis on their relevance in the 21st century. The different types of organisations and their missions, visions, goals and objectives are examined. * The External Business Macro-Environment ; V describes and considers the political, economic, socio-cultural, technological, ecological and legal influences on organisations, utilizing the PESTEL framework of analysis. This section includes a review of the internationalization of businesses and examines the role of GATT and the WTO, single markets and trading blocs. * The External Business Micro-Environment ; V provides a review of the market system and the nature of supply and demand. Market structures are examined in the light of monopolistic regimes and working for competitive advantage. The impact of government intervention is explored via regulatory bodies, privatization, and nationalization programmes. * Business Management ; V explores the major aspects of contemporary business organisations, including corporate governance and business ethics. In particular, this section tackles the areas of structure, culture, change, quality management and the principal functions of organisations. This textbook is a user-friendly resource with end of chapter questions, activities and assignments to consolidate learning. Its strong emphasis on topical examples enables students to understand how theory is applied in business contexts, including, GlaxoSmithKline, BT, Scottish and

Newcastle, Hanson plc and a number of not-for-profit organisations. There is additional Tutor Resource material, including presentation slides, data charts, chapter summaries, questions and answers. "An excellent book...good use of learning objectives, questions and potential assignments." Paul Blakely, Lecturer, University College of Warrington.

Following on from Book 1, this student book covers the various options from BTEC National Business to ensure that students have almost everything they need to complete their Certificate or Diploma.

Bridge the gap between analytics and execution, and actually translate analytics into better business decision-making! Now that you've collected data and crunched numbers, Applied Business Analytics reveals how to fully apply the information and knowledge you've gleaned from quants and tech teams. Nathaniel Lin explains why "analytics value chains" often break due to organizational and cultural issues, and offers "in the trenches" guidance for overcoming these obstacles. You'll discover why a special breed of "analytics deciders" is indispensable for any organization that seeks to compete on analytics... how to become one of those deciders... and how to identify, foster, support, empower, and reward others to join you. Lin draws on actual cases and examples from his own experience, augmenting them with hands-on examples and exercises to integrate analytics at all levels: from top-level business questions to low-level technical details. Along the way, you'll learn how to bring together

analytics team members with widely diverse goals, knowledge, and backgrounds. Coverage includes: How analytical and conventional decision making differ — and the challenging implications How to determine who your analytics deciders are, and ought to be Proven best practices for actually applying analytics to decision-making How to optimize your use of analytics as an analyst, manager, executive, or C-level officer Applied Business Analytics will be invaluable to wide audiences of professionals, decision-makers, and consultants involved in analytics, including Chief Analytics Officers, Chief Data Officers, Chief Scientists, Chief Marketing Officers, Chief Risk Officers, Chief Strategy Officers, VPs of Analytics and/or Big Data, data scientists, business strategists, and line of business executives. It will also be exceptionally useful to students of analytics in any graduate, undergraduate, or certificate program, including candidates for INFORMS certification.

This book is designed to be of value to anyone who is studying human resources, whether as a subject in its own right or as a module forming part of any business-related degree or diploma.
