Mathematics for Business and Personal Finance teaches students mathematics, in the context of business and personal finance like budgeting and money management, banking and credit, and saving and investing. This program provides valuable information on how to use math in everyday business and personal finance situations to fully understand how to manage one's financial resources effectively for lifetime financial security. Includes: print student edition

Describes how a financial column assignment revealed to the author the unethical machinations of the multi-billion-dollar personal finance industry and its false promises of quick and easy wealth, explaining how everyday investors are routinely misled by self-proclaimed money experts who exploit clients to increase their own wealth.

If you are living paycheck to paycheck, fighting with your spouse about money, unemployed or always stressed about how to pay your bills, this book is for you. If you do not have any peace when it comes to money, this book is for you. If you believe that you are doing everything right, but you can 't quite get where you need to be financially, this book is for you. Personal finance is as easy as ABC. Most of us get the math, but it is the emotions of personal finance that we have trouble with. And since personal finance is 90% emotion and 10% math, this may explain why you are struggling. In this book, you will find everything you need to know about every aspect of personal finances and from someone who has been there. We will cover everything from buying a house to budgeting to getting out of debt. This is not a miracle program or a magic pill. This is about a lifestyle of handling money that will give you joy, peace and freedom beyond what you could ever dream of having. Live the dream!

In today's fast-paced and evolving financial environment it is essential for students to have a strong understanding of mathematics to succeed both personally and professionally. MASTER MATH: BUSINESS AND PERSONAL FINANCE MATH teaches students the mathematics required for success in today's world in an easy-to-read, user-friendly format. It covers all the need-to-know information and skills in business math and personal finance topics.

Focus on Personal Finance is a brief, 14-chapter book, covering the critical topics in Personal Finance courses. This 4-color, paperback text is designed and written to appeal to a range of ages, life situations, and levels of financial literacy. A unique aspect of this text is its active approach. This text will not only get your students thinking about their current situation and financial goals, but also encourage them to put these in writing to use as a guide and revise over the course of their lives. The more a student involves themselves in the assessments, exercises and worksheets provided, the more they will discover about their current habits and how to improve them for greater financial freedom. Students have many different financial goals, but none are more important than having a basic understanding of financial issues and peace of mind with regard to their decisions. The ultimate goal of Focus on Personal Finance is to get students to this point as a first step to achieving the many financial goals they have set for themselves. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

This is a final-year college level textbook on personal finance, jointly written by business school and mathematics professors. It is aimed at a wide audience of people who are interested in wealth management from a more rigorous perspective. It may be used in both personal applications and professional classrooms.
