Cisco C20 Api Guide - mielesbar.be

The Cisco TelePresence Video Systems Knowledge Base article (Q. 399) points me to the Cisco TelePresence SX20 Quick Set Administrator Guide. However it does not have the full list of xcommands, unlike other API guides such as "codec_c20_api_reference_guide_tc51" which are also referenced in Q. 399. Thanks, Kelvin

The C20 and SX20 APIs are both available on cisco.com/go/telepresence. The C20 has an optional Y cable to allow serial control from a control system. The SX20 prefers SSH or telnet to control the system, but you can use a USB to Serial converter from the SX20. This is documented in the Synch section under Peripherals on cisco.com/go/telepresence.
