Double click shows the guidelines docker if it is not currently displayed. But if the guidelines docker is already displayed but hidden by another docker, it does not bring it to the front. I think this is wrong. Double clicking on a guideline should always result in the guidelines docker being onscreen and brought to the front.

I use a lot of guidelines, but once a drawing is complete, I like to remove all the guidelines rather than just hide them. In X6, I used to be able to open the guidelines manager and select ALL then hit delete. Now in X7 this no longer works and I need to individually select and delete them. Is there a work around for this?
