The guidelines were developed to present the University's preferences and criteria for the design and construction of campus facilities and landscape. The goal of the design guidelines is to improve the overall aesthetic character and visual unity of the Amherst campus as a whole. They represent the University's commitment for future buildings to create a more cohesive, attractive, productive and sustainable campus environment.

Site Considerations Garden centers, retail greenhouses and farm stands are a popular way of marketing plants. Most operate year-round but some are open only on a seasonal basis, limiting sales to the spring bedding plant season and major holidays. In recent years, most of the major chain stores have installed garden centers to market to their large customer base.

Design Guidelines and Area Plans Referenced in the Zoning Ordinance. The Zoning Ordinance refers to urban design plans and guidelines that apply to certain parts of the city or to certain categories of development. When a project is required to undergo design review (for example, if it requires a special permit from the Planning Board), it is important to review the plans and guidelines that are applicable to that area or development type and to demonstrate how the proposed development ...
