The Hydraulic Institute's comprehensive Rotary Pump Standard ANSI/HI 3.1 – 3.5. Released in 2008 and substantially updated, this edition has twenty additional pages, 40% more content, and increased educational information.

Hydraulic Institute (HI) Standards and Technical Documents ...

Since the ISO hydraulic and pneumatic systems standards now contain safety provisions from the CEN standards and allow compliance with the Machinery Directive, it is important to understand how they fit in the overall hierarchy of machinery safety standards. ISO machinery safety standards are grouped into the three general types listed in Fig 3. Provisions of a Type C standard take precedence over those of a Type B standard such as ISO 4413 or 4414 when there are conflicts or differences.

ISO Standards for Hydraulic Systems and Pneumatic Systems ...

HI Launches Free Pump Savings Calculator Posted: September 30, 2020 The Hydraulic Institute (HI) is the global authority on pumps and pumping systems.HI is a pump association of positive displacement and rotodynamic, centrifugal pump manufacturers and suppliers whose mission is to be a value-adding resource to member companies, engineering consulting firms, and pump users worldwide.

Hydraulic Institute

Its unique value is to help engineers visualized the interaction of different components with the overall hydraulic system by utilizing Hydraulic Institute Standards, Darcy Equation, Bernoulli's Equation, Kirchoff's Laws of node analysis, equations found in the Crane Technical Paper No. 410 (TP-410) and many other industry recognized standards. PSIM 2 is a free educational tool that allows engineers to build models of pump systems and simulate hydraulic behavior. PSIM 2 will model pump ...
