The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

What does it mean to have a great coach? When you are first learning financial accounting, having a great coach means having the ongoing support, direction, and motivation necessary to ensure your success. The Canadian edition of Fundamentals of Financial Accounting is like your personal coach. It provides you with the tools that you will need - to make sense of business activities, and to help you prepare and interpret financial information in an accurate and relevant way. The Canadian companies and examples used in this text bring Financial Accounting to life. What could be more Canadian than Tim Horton's or the National Hockey League? Fundamentals of Financial Accounting provides an accessible and balanced introduction to financial accounting, targeting mid to lower level universities, university colleges and a select number of colleges who are transitioning from a principles based to a financial based accounting course. In the long term, as a growing number of colleges adopt a financial accounting curriculum, Phillips will be an optimal solution and the most student friendly book in the market due to the coaching focus. Through unparalleled pedagogy and the most engaging writing style on the market, this text will act as a personal coach outside the classroom, working to ensure every student's success.

Financial Accounting provides a comprehensive coverage to course requirements of students appearing in the paper Financial Accounting at BCom, BCom (Hons) examinations of different Indian universities and Foundation Examination (NS) of the Institute of Company Secretaries of India. The book is divided into four sections: Section I explains the fundamental principles necessary for understanding the subject. It covers the entire accounting cycle—from recording of financial transactions to the preparation of final accounts. Section II deals with accounting problems related to certain specific types of business transactions. Section III deals with partnership accounts. Section IV provides suggested answers to recent examinations' questions.
