Introduction (Very Short ...~~

Globalization: A Very Short Introduction has been fully updated for a third edition, to include recent developments in global politics, the global economy, and environmental issues. Presenting globalization in accessible language as a multifaceted process encompassing global, regional, and local aspects of social life, this VSI looks at its causes and effects, examines whether it is a new phenomenon, and explores the question of whether, ultimately, globalization is a good or a

~~Globalization: A Very Short
Introduction — Manfred B ...~~

Globalization is a set of social processes that lead to the social condition of globality, through the growing consciousness of global connectivity. There is no consensus on exactly what processes constitute globalization, but common themes include the creation of networks, expansion of social relations, and the acceleration of social exchange.
