Cost and Installation. Air conditioner installation is simple as it only involves three components: A condenser; Indoor units; Connected refrigerant lines; Once these three parts are connected, you're done with installation. These steps are far easier to follow than for a central air system. As a result, installation costs are affordable.

Duct system repairs: If your home or business does have a duct system and you want to install a ducted central air conditioner, the existing ducts may require repairs or alterations to support the new system. Air leaks can reduce air conditioner efficiency up to 30 percent, leading to energy loss and poor temperature control.
