Like a pool of blood, violence is a very sobering subject, one that must be treated seriously in order to do any good. Meditations on Violence certainly fits that bill. It is a refreshingly frank, honest, and in-depth assessment that teaches readers how to think critically about the subject, determine how to evaluate sources of knowledge, and understand how to identify strategies and select tactics to deal with violence effectively.

I'm the author of "Meditations on Violence: A Comparison of Martial Arts Training and Real World Violence" and a few other things. CRASS COMMERCIALISM: my Books and Videos

Looks at the differences between martial arts and violence, with information on such topics as expectations of martial arts training, thinking critically about violence, and adapting training methods to reality.

This book stands alone as an introduction to the context of self-defense. There are seven elements that must be addressed to bring self-defense training to something approaching 'complete.' Any training that dismisses any of these areas leaves the student vulnerable: The seven elements are: Legal and ethical implications; Violence dynamics; Avoidance; Counter-ambush; Breaking the freeze; The fight itself and The aftermath. Any person who desires a deeper understanding of this thing called violence needs to read this book.

A profound reflection on how complementary themes in Buddhism and Christianity could serve as the basis for a truly ecumenical faith • Compares Zen meditation with the Greek Orthodox practice of Hesychasm (prayer of the heart) • Shows how Buddha and Jesus represent the distinct yet complementary values of meditation and compassion In Asian spiritual traditions the mountain traditionally symbolizes meditation while the ocean signifies compassion. Jean-Yves Leloup uses this metaphor to compare Buddhist and Christian approaches to meditation and compassion to reveal the similarities and divergences of these profound practices. Emphasizing their complementary nature, Leloup describes how Jesus and Buddha are necessary to one another and how together they form a complete system: Jesus as awakening through love, and Buddha as awakening through meditation. Where Buddha represents the forests, Jesus represents the trees. Buddha is brother to the universe, whereas Jesus is brother to humanity. Nevertheless, these two religious traditions have a profound common ground. Compassion is central to Buddhism, and meditation practices have been central to many Christian traditions. Both view murder, theft, and the destructive use of sexuality as great barriers to realizing our essential being, and both agree on the need to rise above them. Here, however, Leloup suggests that both faiths could benefit from the precepts of the other. The complementary aspects of Christianity and Buddhism offer the possibility for a truly profound ecumenical religion whose interfaith relations are based on deep understanding of the true meaning and practice of meditation and compassion and not merely shared goodwill.

The speed and brutality of a predatory attack can shock even an experienced martial artist. The sudden chaos, the cascade of stress hormones?you feel as though time slows down. In reality, the assault is over in an instant. How does anyone prepare for that? As a former corrections sergeant and tactical team leader, Rory Miller is a proven survivor. He instructs police and corrections professionals who, in many cases, receive only eight hours of defensive tactics training each year. They need techniques that work and they need unflinching courage. In Training for Sudden Violence Miller gives you the tools to prepare and prevail, both physically and psychologically. He shares hard-won lessons from a world most of us hope we never experience. Train in fundamentals, combat drills, and dynamic fighting. Develop situational awareness. Condition yourself through stress inoculation. Take a critical look at your training habits. "You don't get to pick where fights go," Miller writes. That's why he has created a series of drills to train you for the worst of it. You will defend yourself on your feet, on the ground, against weapons, in a crowd, and while blindfolded. You will reevaluate your training scenarios?keeping what

works, discarding what does not, and improving your chances of survival. Miller's "internal work," "world work," and "plastic mind" exercises will challenge you in ways that mere physical training does not. Sections include: Stalking Escape and evasion The predator mind Personal threat assessment This is a fight for your life, and it won't happen on a nice soft mat. It will get, as Miller says, "all kinds of messy." Training for Sudden Violence prepares you for that mess.

An instant New York Times bestseller Two spiritual giants. Five days. One timeless question. Nobel Peace Prize Laureates His Holiness the Dalai Lama and Archbishop Desmond Tutu have survived more than fifty years of exile and the soul-crushing violence of oppression. Despite their hardships—or, as they would say, because of them—they are two of the most joyful people on the planet. In April 2015, Archbishop Tutu traveled to the Dalai Lama's home in Dharamsala, India, to celebrate His Holiness's eightieth birthday and to create what they hoped would be a gift for others. They looked back on their long lives to answer a single burning question: How do we find joy in the face of life's inevitable suffering? They traded intimate stories, teased each other continually, and shared their spiritual practices. By the end of a week filled with laughter and punctuated with tears, these two global heroes had stared into the abyss and despair of our time and revealed how to live a life brimming with joy. This book offers us a rare opportunity to experience their astonishing and unprecedented week together, from the first embrace to the final good-bye. We get to listen as they explore the Nature of True Joy and confront each of the Obstacles of Joy—from fear, stress, and anger to grief, illness, and death. They then offer us the Eight Pillars of Joy, which provide the foundation for lasting happiness. Throughout, they include stories, wisdom, and science. Finally, they share their daily Joy Practices that anchor their own emotional and spiritual lives. The Archbishop has never claimed sainthood, and the Dalai Lama considers himself a simple monk. In this unique collaboration, they offer us the reflection of real lives filled with pain and turmoil in the midst of which they have been able to discover a level of peace, of courage, and of joy to which we can all aspire in our own lives.

Provides a range of options, from skillfully doing nothing to applying deadly force, designed to prevent violence or, if that is not possible, to defend oneself against it as effectively as possible.

A provocative meditation on race, Claudia Rankine's long-awaited follow up to her groundbreaking book Don't Let Me Be Lonely: An American Lyric. Claudia Rankine's bold new book recounts mounting racial aggressions in ongoing encounters in twenty-first-century daily life and in the media. Some of these encounters are slights, seeming slips of the tongue, and some are intentional offensives in the classroom, at the supermarket, at home, on the tennis court with Serena Williams and the soccer field with Zinedine Zidane, online, on TV—everywhere, all the time. The accumulative stresses come to bear on a person's ability to speak, perform, and stay alive. Our addressability is tied to the state of our belonging, Rankine argues, as are our assumptions and expectations of citizenship. In essay, image, and poetry, Citizen is a powerful testament to the individual and collective effects of racism in our contemporary, often named "post-race" society.

When it comes to disease, who beats the odds — and why? When it comes to spontaneous healing, skepticism abounds. Doctors are taught that “miraculous”

recoveries are flukes, and as a result they don't study those cases or take them into account when treating patients. Enter Dr. Jeff Rediger, who has spent over 15 years studying spontaneous healing, pioneering the use of scientific tools to investigate recoveries from incurable illnesses. Dr. Rediger's research has taken him from America's top hospitals to healing centers around the world—and along the way he's uncovered insights into why some people beat the odds. In *Cured*, Dr. Rediger digs down to the root causes of illness, showing how to create an environment that sets the stage for healing. He reveals the patterns behind healing and lays out the physical and mental principles associated with recovery: first, we need to physically heal our diet and our immune systems. Next, we need to mentally heal our stress response and our identities. Through rigorous research, Dr. Rediger shows that much of our physical reality is created in our minds. Our perception changes our experience, even to the point of changing our physical bodies—and thus the healing of our identity may be our greatest tool to recovery. Ultimately, miracles only contradict what we know of nature at this point in time. *Cured* leads the way in explaining the science behind these miracles, and provides a first-of-its-kind guidebook to both healing and preventing disease.

It's widely accepted that Transcendental Meditation (TM) can create peace for the individual, but can it create peace in society as a whole? And if it can, what could possibly be the mechanism? In *An Antidote to Violence* Barry Spivack and Patricia Saunders examine the peer-reviewed research and suggest that TM can influence the collective consciousness of a society which leads to a decrease in negative social trends, such as a decline in war fatalities, and to an increase in cooperation between nations. Weaving together psychology, sociology, philosophy, statistics, politics, physics and meditation, *An Antidote to Violence* provides evidence that we have the knowledge to reduce all kinds of violence in society.

Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.
