Get the router ready for use with TR069. This Best Practices Guide shows an example of RouterOS initial setup if it needs safe/preconfigured factory-reset with custom configuration, especially when tr069 is used. It can be useful in cases when the user (or provider unknowingly) has misconfigured device in a non-reversible state. Then factory-reset configuration can be applied using TR069 FactoryReset RPC or through RouterOS /system reset-configuration or by using the reset button on the router.
