Whether you have been experiencing manipulation for years, or if this is something entirely new, psychological manipulation can be tricky to decipher. Mostly because the manipulators themselves are true masters of emotional disguise. More often than not, their sweet talking covers their self-serving, dishonest, and, on the whole, sinister intentions. On top of this confusing mismatch of words and actions, they often try to evoke in their interlocutor powerful feelings of guilt or sympathy, so as to make them more susceptible to manipulation. They can be found anywhere, even in the places we frequent most. It could be your partner, your boss, your neighbor, a co-worker, a distant or close relative, or even a friend. We are talking about people who are masters of certain manipulation techniques and use them to confuse us. Although they are around us, it is not easy to detect these people. Their characteristics and personality traits are not evident. Nobody carries a sign on their foreheads, warning that they are a narcissist or sociopath. This book has all you might need to get ahead in life, economically, emotionally, or even socially. Within this ebook, we go through a variety of topics discussing and analyzing the dark psychology behind manipulation. Luckily, you can keep this from happening to YOU, if you know how...
