The term pneumatology comes from two Greek words, namely, pneuma meaning “wind,” “breath,” or “spirit” (used of the Holy Spirit) and logos meaning “word,” “matter,” or “thing.”. As it is used in Christian systematic theology, “pneumatology” refers to the study of the biblical doctrine of the Holy Spirit. Generally this includes such topics as the personality of the Spirit, the deity of the Spirit, and the work of the Spirit throughout Scripture.

Pneumatology refers to a particular discipline within Christian theology that focuses on the study of the Holy Spirit. The term is derived from the Greek word Pneuma, which designates "breath" or "spirit" and metaphorically describes a non-material being or influence. The English term pneumatology comes from two Greek words: ?????? and ??????. Pneumatology includes study of the person of the Holy Spirit, and the works of the Holy Spirit. This latter category also includes ...

It also includes chapters on key concepts in the field, such as mediation and sacramentality, ecology, and creation. This broad scope enables readers to appreciate how nuanced the field of Pneumatology is, and how it can be relevant for other Christian discourses.

An internationally respected scholar offers a biblical, historical, and theological assessment of the doctrine of the Holy Spirit, focusing on the ecumenical and contextual experiences of the Spirit. This comprehensive review of pneumatology in global perspective examines various theological and denominational understandings of the Spirit, assesses key contemporary theologians of the Spirit, and

The letter of 1 Peter was written to persecuted Christians scattered throughout the Roman Empire. It was meant to both encourage and instruct them on how to live as pilgrims in a hostile society. This message is still relevant today. Christ declared that in the end times believers would be hated by all nations because of him (Matthew 24:9). With the continuing culture shift, animosity and persecution towards Christians is increasing at an alarming rate. Over four hundred Christians are martyred every day, and more saints have died for the faith in the last century than all the previous combined.

The words of 1 Peter are a message of hope, desperately needed to encourage and prepare the Church for what lies ahead. Let's journey through Peter's letter together with the aid of The Bible Teacher's Guide. Expository, theological, and candidly practical! I highly recommend the Bible Teacher's Guide for anyone seeking to better understand or teach God's Word. Dr. Young-Gil Kim, Founding President of Handong Global University This study could be used by pastors as an aid for sermon preparation, by small group leaders, or by any believer who wants to understand and apply God's Word personally. I can't imagine any student of Scripture not benefiting by this work. Steven J. Cole, Pastor, Flagstaff Christian Fellowship.

The concept of predestination has been an essential topic in theology and philosophy since at least the time of St. Augustine,

and is notoriously among the most contentious of religious doctrines. Many people of faith have found the belief that God destines them for eternal joy a source of great comfort, but many others have found it deeply troubling. Above all, those who reject predestination have been motivated by concerns about the doctrine's implications for human free will and divine responsibility for evil. Couenhoven addresses these issues by taking up two important questions: “What does predestination actually imply?”, and “How have great theologians defended their doctrines of predestination?” He answers these queries by analyzing why Augustine, Anselm, Aquinas, Luther, Calvin, and Barth found the doctrine attractive, and explaining the different ways in which they combined belief in predestination, freedom, and God's goodness. The book concludes with a constructive chapter in which Couenhoven defends

predestination as a doctrine of hope.

How do the Greco-Roman views of ethnicity inform our reading of the Spirit in the Fourth Gospel? This study not only reviews the role of ethnicity and race in the ancient world; it also proposes a bold new understanding of Johannine pneumatology. From an ethnocritical perspective, this study argues that the Spirit was articulated for an ethnically diverse Johannine community that was dealing with the issues of race relations. The Spirit is the divine breath of God that commissions Jesus for the redemption of all ethnicities. The Spirit is involved in the maternal birth of all ethnic members who are in the family of God. The Spirit draws all people despite their ethnic lineage and heritage. And the Spirit is actively involved as an advocate for the minoritized community undergoing

synagogue violence. Will the members of the Johannine community still hold onto ethnic ideologies of dehumanization that were prevalent of their age? Can the Johannine community still have the Spirit and support ideologies of ethnic division and hate? This study seeks to answer these questions.

With his latest book, *The Holy Spirit before Christianity*, John R. Levison again changes the face and foundation of Christian belief in the Holy Spirit. The categories Christians have used, the boundaries they have created, the proprietary claims they have made--all of these evaporate, now that Levison has looked afresh at Scripture. In a study that is both poignant and provocative, Levison takes readers back five hundred years before Jesus, where he discovers history's first grasp of the Holy Spirit as a personal agent. The prophet

Haggai and the author of Isaiah 56-66, in their search for ways to grapple with the tragic events of exile and to articulate hope for the future, took up old exodus traditions of divine agents--pillars of fire, an angel, God's own presence--and fused them with belief in God's Spirit. Since it was the Spirit of God who led Israel up from Egypt and formed them into a holy nation, now, the prophets assured their hearers, the Spirit of God would lead and renew those returning from exile. Taking this point of origin as our guide, Christian pneumatology--belief in the Holy Spirit--is less about an exclusively Christian experience or doctrine and more about the presence of God in the grand scheme of Israel's history, in which Christianity is ancient Israel's heir. This explosive observation traces the essence of Christian pneumatology deep into the heart of the Hebrew Scriptures. The implications are fierce: the priority of

Israelite tradition at the headwaters of pneumatology means that Christians can no longer hold stubbornly to the Holy Spirit as an exclusively Christian belief. But the implications are hopeful as well, offering Christians a richer history, a renewed vocabulary, a shared path with Judaism, and the promise of a more expansive and authentic experience of the Holy Spirit.
