I have a new Soundstation IP 7000 and when I try to go to that Soundstation's IP address to manage it via the web, I get an pop up window for the user name and password. This is very different than what I see in the manual. I tried the user name of "Admin" with the default password and even "User" with "123" with no luck.

I have a new Soundstation IP 7000 and am unable to access the web interface to configure it. When I open a browser and enter the IP address I receive a "Welcome to Polycom Web Configuration Utility" screen with a prompt to enter login information. It gives me two choices of logins: Admin or User. Choosing Admin, I enter the default password (456, which seems to work to enter the advanced ...

Re: SoundStation IP 4000  
admin password Just a follow  
up, if the Phone DHCP  
Settings provision the Phone  
with a Provisioning Server  
via the Option 66 and or  
Custom Option (unsure if  
that already exists in SIP  
2.x.x) then the Phone will  
always load its  
configuration from that  
Server and overwrite the  
changes you have just made.
