This quality standard covers services to support the health, social and emotional wellbeing of children under 5. This includes: home visiting, childcare, early intervention services in children's social care, and early education.

Early years: promoting health and wellbeing in under 5s

Using emotional language – We need to help children understand their feelings and emotions, by using emotion language and giving them an emotional vocabulary we are enabling them to understand their feelings and also other peoples. From babies we can start to talk about their feelings, e.g when a baby is crying to be fed we can respond with gently saying 'It's OK I know you are feeling hungry, I am going to feed you now'.

Tips for promoting young children's emotional wellbeing

Emotional health, mental health, well-being, resilience and life satisfaction are all broad headings that encompass a wide variety of phenomena that are emotional(e.g. feelings of anxiety), cognitive(e.g. beliefs about oneself), behavioural(e.g. participation in risky and/or antisocial behaviours), motivational(e.g. being able to bounce back from failure in order to work towards goals) and/or social-relational(e.g. positive relationships with others).

Promoting Emotional Health, Well-being and Resilience in ...

Promote emotional wellbeing in your setting... 1. Become the voice for the child – identify and express the feeling behind the behaviour you see. This helps the child link that feeling with their behaviour and enables them to understand the feeling.
