The other name of this irrigation system is trickle irrigation. What is Sprinkler Irrigation? If you apply pumping system in which you make use of pipes to distribute water with the help of spray heads which moisten your whole soil surface, then this system is known as Spray or Sprinkler system. Drip Irrigation Vs Sprinkler

Drip Irrigation Vs Sprinkler: Pros and Cons of Two Systems

It is a synonym to trickle or micro irrigation. This irrigation system consists of a network of pipelines and valves. Those valves facilitate dripping water directly to the plant root zone. Unnecessary places in the cultivation are not wetted by this method, and ultimately it reduces the water loss by evaporation and leaking.
