Economic change is a shift in the structure of an economic system. This results in changes to societies, cultures and everyday life on a global or national basis. Economic change caused by technology, politics and progress is a regular feature of history. The following are illustrative examples of economic change.

15 Examples of Economic Change - Simplifiable

It is possible that internal changes occur within the elements of work, but by maintaining the relationships between them, the same economic structure will be preserved. For example, in the case of manufacturing industry, it is possible to consider as part of the elements that represent social relations to capitalist investors and wage labor.

What is an Economic Structure? | Life Persona

One consequence of the emergence of the new economic structure was that population growth accelerated. This was partly attributable to marginal increase in birth rate and largely to fall in the death rate (following the growing demand for and supply of medical care and control of malignant diseases).

Structural Changes in the Indian Economy

Structural change refers to dramatic shift in the way a country, industry, or market operates, usually brought on by major economic developments. The key to effect structural change is the dynamism...

Structural Change Definition - Investopedia

Changing Structure of the Global Economy Since the end of World War II, the global economy has steadily increased its trade and financial openness, enabled in part by the International Monetary Fund (IMF), the World Bank, and the General Agreement on Tariffs and Trade (GATT), now the World Trade Organization (WTO).

Changing Structure of the Global Economy

Basic hypothesis on structural change and economic development: The more a country directs its .productive structure and net export basket to very diversified goods, with a major presence of the science-, engineering- and knowledge-based sectors, the larger will be its degree of intensity of structural change.
