Susan Bennett's landmark work, *Theatre Audiences*, explores the audience's role in traditional and avant-garde theatre, and the impact of the spectator upon the performance itself. This 2nd edition includes a new chapter, new conclusion and illustrations.

Through a collection of original essays and case studies, this innovative book explores theory as an accessible, although complex, tool for theatre practitioners and students. These chapters invite readers to (re)imagine theory as a site of possibility or framework that can shape theatre making, emerge from

Read Online Theatre Theory Theatre

practice, and foster new ways of seeing, creating, and reflecting. Focusing on the productive tensions and issues that surround creative practice and intellectual processes, the contributing authors present central concepts and questions that frame the role of theory in the theatre. Ultimately, this diverse and exciting collection offers inspiring ideas, raises new questions, and introduces ways to build theoretically-minded, dynamic production work.

Beginning with Aristotle and the Greeks and ending with semiotics and post-structuralism, *Theories of the Theatre* is the first comprehensive survey of Western dramatic theory. In this expanded edition the author has

updated the book and added a new concluding chapter that focuses on theoretical developments since 1980, emphasizing the impact of feminist theory.

"Music Theory for Musical Theatre is designed to demystify music theory and analysis and make it more accessible to musical theatre students. It aims to equip them with a basic skill set to apply directly to the art form. John Bell and Steven R. Chicurel explore how musical theatre composers use basic principles of music theory to illuminate characters and tell stories, helping students understand the form, structure, and

methodologies and approaches for their own work on sound as a performance component. In an engagement with the burgeoning interdisciplinary field of sound studies, this book samples exciting new thinking relevant to theatre and performance studies. Part of the Theory for Theatre Studies series which introduces core theoretical concepts that underpin the discipline, Sound provides a balance of essential background information and new scholarship, and is grounded in detailed examples that illuminate and equip readers for their own sonic explorations. Volumes follow a consistent three-part structure: a historical overview of how the term has been understood within the discipline; more recent developments illustrated by substantive
