Henry Petroski - Wikipedia

To engineer is human; doing it right might require beavers. Erik Michelsen stands atop a beaver dam in Anne Arundel County, MD. Dave Harp. Behold the concrete road culvert: straight and narrow and lifeless, having whisked the previous day's rains from oceans of hard-baked asphalt with ruthless efficiency, swelling quickly to 6 feet deep with stormwater, then receding to less than an inch of water hours later.

To engineer is human; doing it right might require beavers ...

To Engineer is Human by Henry Petroski concerns itself with the impact of failure in design. The book asserts that not only is it the responsibility of the designer to make sure things do not break, but also to be able to spot when they are vulnerable to failure and correct the problem before it becomes comprehensive and impossible to fix.
