Over 5,300 total pages MARINE RECON Reconnaissance units are the commander's eyes and ears on the battlefield. They are task organized as a highly trained six man team capable of conducting specific missions behind enemy lines. Employed as part of the Marine Air-Ground Task Force, reconnaissance teams provide timely information to the supported commander to shape and influence the battlefield. The varying types of missions a Reconnaissance team conduct depends on how deep in the battle space they are operating. Division Reconnaissance units support the close and distant battlespace, while Force Reconnaissance units conduct deep reconnaissance in support of a landing force. Common missions include, but are not limited to: Plan, coordinate, and conduct amphibious-ground reconnaissance and surveillance to observe, identify, and report enemy activity, and collect other information of military significance. Conduct specialized surveying to include: underwater reconnaissance and/or demolitions, beach permeability and topography, routes, bridges, structures, urban/rural areas, helicopter landing zones (LZ), parachute drop zones (DZ), aircraft forward operating sites, and mechanized reconnaissance missions. When properly task organized with other forces, equipment or personnel, assist in specialized engineer, radio, and other special reconnaissance missions. Infiltrate mission areas by necessary means to include: surface, subsurface and airborne operations. Conduct Initial Terminal Guidance (ITG) for helicopters, landing craft, parachutists, air-delivery, and re-supply. Designate and engage selected targets with organic weapons and force fires to support battlespace shaping. This includes designation and terminal guidance of precision-guided munitions. Conduct post-strike reconnaissance to determine and report battle damage assessment on a specified target or area. Conduct limited scale raids and ambushes. INTRODUCTION This graphic training aid (GTA) is an indispensable reference tool for tactical Psychological Operations (PSYOP) Soldiers assigned to leadership positions. It contains valuable, comprehensive, and timesaving information in a concise format, making it easily transportable and simple to use. The focus of this GTA is to provide requisite information to help the tactical PSYOP Soldier better plan and execute PSYOP in support of a maneuver commander. Noncommissioned officers (NCOs) leading a three-man tactical Psychological Operations team (TPT) or planning PSYOP at division or corps levels will find this GTA extremely helpful. This GTA includes a number of worthwhile tools and techniques to assist in the planning and conduct of tactical-level PSYOP. From the basic principles of military decision-making process (MDMP) and PSYOP planning through the determination of measures of effectiveness (MOEs), this GTA will help the PSYOP NCO plan and execute doctrinally accurate and successful PSYOP. Numerous formats and guides, such as how to conduct PSYOP estimates, complete operational area assessments, and radio station assessments, are also included. The proponent of this GTA is the United States Army John F. Kennedy Special Warfare Center and School (USAJFKSWCS). Submit comments and recommended changes to Commander, USAJFKSWCS, ATTN: AOJK-DTD-PO, Fort Bragg, NC 28310-5000. Unless this publication states otherwise, masculine nouns and pronouns do not refer exclusively to men.

A guide to the basic skills all soldiers, sailors, and Marines must know to prevail in small-unit dismounted combat operations, including planning, battle drills for offense and defense operations, patrols, construction and emplacement of fighting positions, use of weapons and call for fire, land navigation and map reading, communications, close quarter battle, and tactical combat casualty care.

This guide is a compilation of decades of Special Forces knowledge and experience from the two Special Forces authors. Perfect size handbook for the cargo pocket to help small unit leaders properly plan operations in limited time and under stress. This guide will be timeless with the troops who understand having a pocket size planning guide.

A New York Times Best seller! In Level Zero Heroes, Michael Golembesky follows the members of U.S. Marine Special Operations Team 8222 on their assignment to the remote and isolated Taliban stronghold known as Bala Murghab as they conduct special operations in an effort to break the Taliban's grip on the Valley. What started out as a routine mission changed when two 82nd Airborne Paratroopers tragically drowned in the Bala Murghab River while trying to retrieve vital supplies from an air drop that had gone terribly wrong. In this one moment, the focus and purpose of the friendly forces at Forward Operating Base Todd, where Team 8222 was assigned, was forever altered as a massive clearing operation was initiated to break the Taliban's stranglehold on the valley and recover the bodies. From close-quarters firefights in Afghan villages to capturing key-terrain from the Taliban in the unforgiving Afghan winter, this intense and personal story depicts

the brave actions and sacrifices of MSOT 8222. Readers will understand the hopelessness of being pinned down under a hail of enemy gunfire and the quake of the earth as a 2000 lb. guided bomb levels a fortified Taliban fighting position. A powerful and moving story of Marine Operators doing what they do best, Level Zero Heroes brings to life the mission of these selected few that fought side-by-side in Afghanistan, in a narrative as action-packed and emotional as anything to emerge from the Special Operations community contribution to the Afghan War.

Written by a former 75th Ranger Regiment soldier, "Marty" will take you inside the Ranger Assessment and Selection Program and the Special Forces Assessment and Selection Program to teach prospective Special Operations soldiers the ins and outs of each unit's selection program. As someone who also runs a train-up program for soldiers going into the military on Ranger and Special Forces contracts, Marty is uniquely suited to write a program of instruction which walks would-be Special Operations troops through the course and tells them how to get from A to B and achieve their goals in the Special Operations community. Filled with entertaining anecdotes and an insider's knowledge, this is a must-read for prospective rangers and armchair military enthusiasts everywhere. (25,000 words)
