How do we restore African manhood to those whom our society has not viewed as the chosen people? Discover the startling prediction of the mystical tradition of ancient Africa.

Offers guidance to help African American males achieve their potential and fully realize their manhood, examining and comparing the actions of men and boys to provide a measuring stick to gauge personal development.

During its golden years, the twentieth-century black press was a tool of black men's leadership, public voice, and gender and identity formation. Those at the helm of black newspapers used their platforms to wage a fight for racial justice and black manhood. In a story that stretches from the turn of the twentieth century to the rise of the Black Power movement, D'Weston Haywood argues that black people's ideas, rhetoric, and protest strategies for racial advancement grew out of the quest for manhood led by black newspapers. This history departs from standard narratives of black protest, black men, and the black press by positioning newspapers at the intersections of gender, ideology, race, class, identity, urbanization, the public sphere, and black institutional life. Shedding crucial new light on the deep roots of African Americans' mobilizations around issues of rights and racial justice during the twentieth century, *Let Us Make Men* reveals the critical, complex role black male publishers played in grounding

those issues in a quest to redeem black manhood.

INSTANT NEW YORK TIMES BESTSELLER An urgent primer on race and racism, from the host of the viral hit video series “ Uncomfortable Conversations with a Black Man ” “ You cannot fix a problem you do not know you have. ” So begins Emmanuel Acho in his essential guide to the truths Americans need to know to address the systemic racism that has recently electrified protests in all fifty states. “ There is a fix, ” Acho says. “ But in order to access it, we ’ re going to have to have some uncomfortable conversations. ” In *Uncomfortable Conversations With a Black Man*, Acho takes on all the questions, large and small, insensitive and taboo, many white Americans are afraid to ask—yet which all Americans need the answers to, now more than ever. With the same open-hearted generosity that has made his video series a phenomenon, Acho explains the vital core of such fraught concepts as white privilege, cultural appropriation, and “ reverse racism. ” In his own words, he provides a space of compassion and understanding in a discussion that can lack both. He asks only for the reader ’ s curiosity—but along the way, he will galvanize all of us to join the antiracist fight.

Militant Visions examines how, from the 1940s to the 1970s, the cinematic figure of the black soldier helped change the ways American moviegoers saw black men, for the first time presenting African Americans as vital and integrated members of the nation. In the process, Elizabeth Reich reveals how the image of the proud and powerful African American serviceman was crafted by an unexpected alliance of government propagandists, civil rights activists, and black filmmakers. Contextualizing the figure in a genealogy of black radicalism and internationalism, Reich shows the evolving images of black soldiers to be inherently transnational ones, shaped by the displacements of diaspora, Third World revolutionary philosophy, and a legacy of black artistry and performance. Offering a nuanced reading of a figure that was simultaneously conservative and radical, Reich considers how the cinematic black soldier lent a human face to ongoing debates about racial integration, black internationalism, and American militarism. *Militant Visions* thus not only presents a new history of how American cinema represented race, but also demonstrates how film images helped to make history, shaping the progress of the civil rights movement itself.

Based on the compelling vision of Nicolas Black Elk as written by John G. Neihardt in Black Elk Speaks, Quentin H. Young has unlocked its messages, as he clarifies each detail of the vision. A vision given for all people of the world then, now, and for the future, and explains why a vision given to a young Lakota boy in 1872 has relevance today. Black Elk Speaks: As Black Elk, the bay horse, the blacks, whites, sorrels and buckskin horses all marched; they came to a cloud shaped like a tepee with a rainbow for its door. When Black Elk looked through the rainbow door, he saw six old men (Grandfathers) sitting inside. The eldest Grandfather spoke to Black Elk in a gentle manner and said; Enter and do not be afraid. As the Grandfather was speaking, all the horses whinnied, showing their support for Black Elk. He entered the lodge and stood in front of the Six Grandfathers. They looked older than men of the earth could be. The eldest Grandfather said; Your Grandfathers are having a gathering, and have sent for you, to instruct you. Black Elk said he knew these were not just old men; they were the powers of the six directions, and he was frightened.
